PROCEDURE
While trying to spend as little “money” as possible, build a Paper Roller Coaster using the supplies that your teacher provides. The roller coaster should be exciting, reliable, and take a long time for the marble to travel from the start to the finish. Look at the scoring sheet below before you begin. Good luck!

TESTING
After you’re done building, your teacher will test your Paper Roller Coaster by placing one marble at a time on it. Record the amount of time it takes for each marble to reach the bucket at the end of the track. If the marble gets stuck or falls off the track, write N/A for that trial.

Trial #1 ________ seconds
Trial #2 ________ seconds
Trial #3 ________ seconds
Trial #4 ________ seconds
Trial #5 ________ seconds
Total time for all trials = ________ seconds

Enter your total time for the five trials in the chart at the right. Your teacher will help you complete the rest of the chart.
